SUMMARY

Technical IT graduate from IFRS with a practical background in web development, SQL, automation and data analysis with Python. During my internship at FURG, I organized, cleaned and visualized environmental datasets using pandas, NumPy, Jupyter Notebook and Matplotlib. I also built systems with Node.js, Express and MySQL, covering authentication, sessions, CRUD operations, APIs and relational data modeling. I am seeking an entry-level opportunity in development, data, automation, BI, QA, systems or technical support.

EXPERIENCE

Data Analysis Intern

Jun 2025 - Oct 2025 · FURG - Federal University of Rio Grande

- Processed and cleaned environmental datasets related to pH, salinity, dissolved oxygen and turbidity using Python, pandas and NumPy.
- Created Matplotlib visualizations for technical presentations and communication with researchers.
- Organized raw datasets into structured formats, improving consistency, traceability and workflow reuse.
- Documented Jupyter notebooks; the project was published on GitHub and presented at the IFRS Scientific Exhibition.

PROJECTS

Environmental Data Analysis - Lagoa dos Patos

Python, pandas, NumPy, Jupyter and Matplotlib applied to datasets from FURG/FEPAM/ANA. Includes cleaning, exploratory analysis, visualizations and technical documentation.

ProjetoQuadrasiFRS - Sports Court Booking System

Node.js, Express, MySQL, HTML, CSS and JavaScript. Registration, bcrypt authentication, sessions, CRUD operations, conflict rules and court management.

Application Tracker - Full-Stack Study Project

JavaScript, Node.js, Express and SQL application for registering jobs and companies, tracking hiring stages and reviewing job-search indicators. Repository being organized.

Educational Finance Assistant - Bradesco/DIO

Python and Streamlit prototype that queries a local knowledge base to answer questions about personal finance and digital safety.

EDUCATION

Technical Diploma in Web Development and IT - Integrated High School Program

2022 - 2025 · IFRS - Restinga Campus

COURSES AND CERTIFICATIONS

EF SET English Certificate - C2 · AI and Data Track - Alura / Geração Caldeira Program · Bradesco Bootcamp: GenAI, Data and Cybersecurity - DIO · Computer Hardware Basics - Cisco Networking Academy · Practical Excel - Fundação Bradesco

TECHNICAL SKILLS

- **Web Development & Systems:** HTML, CSS, JavaScript, Node.js, Express, REST APIs, JSON, Postman/Insomnia
- **Data & Automation:** Python, pandas, NumPy, Matplotlib, Jupyter Notebook, Excel, Power Query, basic ETL and data visualization
- **Databases:** SQL, MySQL, SQLite, queries, JOINS, CRUD and basic relational data modeling
- **Tools:** Git, GitHub, VS Code, XAMPP and Microsoft Office
- **Support & Infrastructure:** Windows, basic Linux, hardware, TCP/IP networking, DNS and DHCP
- **Currently learning:** TypeScript and React

LANGUAGES

Portuguese - Native · English - Advanced · Spanish - Basic
